

MSHSAA Partners with iWanamaker to offer Live Scoring and Rankings for High School Golf in Missouri

The iWanamaker platform is available free of charge to high school golf programs in Missouri. The program is simple - coaches create events, golfers score events live and spectators purchase event tickets on the MSHSAA Golf App (powered by iWanamaker) to follow live scoring for matches and tournaments across the state. Live scoring is required for both the District and State Tournaments, but is optional for school use during all regular season events. As the season progresses, statewide rankings and statistics are accessible by everyone, including college coaches.
