Eligibility Rulings

All official eligibility opinions shall be in writing and shall bear the signature of the executive director. Verbal rulings are not official. Principals are reminded that correspondence concerning eligibility rulings, annual eligibility lists, applications for waiver of the transfer rule, hardship transfers and sanction forms, must be signed by the principal for consideration by the MSHSAA.

Mission Statement

“The MSHSAA promotes the value of participation, sportsmanship, team play, and personal excellence to develop citizens who make positive contributions to their community and support the democratic principles of our state and nation.”

Email Policy: Due to the high volume of email messages received by the Association, an expedited personal response may not always be possible. The MSHSAA staff will respond first to more traditional means of communication such as telephone calls, written correspondence and faxes. The MSHSAA office can be reached at (573) 875-4880 during regular office hours. As time permits, staff will reply to email messages that include the sender’s complete name, address and phone number. Questions regarding student eligibility or specific MSHSAA by-laws should first be directed to your local school administrator. By Board policy, our staff is not permitted to answer specific eligibility inquiries via email, and any follow-up questions to the MSHSAA should be done via telephone or written correspondence.
by Dr. Kerwin Urhahn, MSHSAA Executive Director

Welcome to the Spring Semester of the 2012-13 school year. Wasn’t it yesterday that we were starting fall sports practices? This is the time of the school year as a teacher and administrator that I felt we could make strides in teaching our students because the weather was not pleasant enough to go outside and we could focus on educating our kids. It is also a difficult time at schools because school boards are discussing renewal of administrators, teachers, and coaches; which makes for a stressful time for all involved.

Education and the stress of this time of year are some of the issues that I have been researching as they pertain to positive coaching. I have been reading the research available on positive coaching and the theory on the different types of coaching has been interesting. I think back to the classes for my Master’s in Secondary Administration and I remember this theory. I recall craving the practicality of knowing if it works or not. I can see where people are going to read this and have those same questions of me... “Great theory, but does it work?” To be honest, I do not have enough practical knowledge of all the theories to say... “Yes it all works!” However, I do have the practical experience to know that many of the principles taught do work. I didn’t even realize I was practicing positive coaching when I was implementing them.

I would like to discuss one of the areas that we see in society today that is addressed in positive coaching, external motivation. Think about how many times, as coaches and administrators, you hear parents talk about their children getting an athletic scholarship to go to college, or that their child will be the next great professional athlete. On September 17, 2012, the NCAA released the numbers and percentages of high school athletes that will be playing at an NCAA institution in the sports of Men’s Basketball (3.3%), Woman’s Basketball (3.7%), Football (6.4%), Baseball (6.7%), and Men’s Soccer (5.6%). Furthermore; they provided the numbers of the high school athletes that eventually make it to professional sports team in these same sports: Men’s Basketball (.03%), Women’s Basketball (.02%), Football (.08%), Baseball (.51%), and Men’s Soccer (.03%). So, less than 1% of all students that play each of those sports will get paid to play a sport professionally.

In addition to getting an education, these students are also getting the external motivation of those around them that if they want to succeed they have to get a scholarship or win at everything they do. This is a dangerous view of what sports do for a student. I understand about winning. I want to win at everything I do just as much now as I have in the past, but realize that is not life. In my current Applied Positive Coaching class, I am reading Inside Out Coaching, by Joe Ehrmann. Coach Ehrmann makes the following statement, “…there is not a more flawed measure of a child’s value than sports. The playing fields are uneven; genetics skew the results in favor of the proper body type for each sport; dedication and determination can do only so much. And yet some parents and coaches use performance as the measure of a child’s worth.” That is not what high school sports are for, and views like this are why parents want coaches fired. These views are why kids quit playing because it is not fun to play anymore. Students need to have the intrinsic motivation to do their best, and have fun while playing sports and doing the work to make themselves better.

As stated earlier, I was unaware of my use of “positive coaching” when I was still coaching at the high school level. It was always my belief that it was important to teach students to work hard, commit to be there for their teammates, build relationships with others, and strive to do the best they could every time they attempted to do something in sports and life. Those are many of the principles taught in “positive coaching”.

I have written before and spoken about the benefits and fantastic parts of being a coach, teacher and administrator. One of these benefits is all the great people I have had the opportunity to meet, know, and work with. Those relationships are what positive coaching is about. It is asking coaches to be a “Transformational Coach” as opposed to a “Transactional Coach”. I stole those two words from Coach Ehrmann, but he believes, as I do, that a coach can leave a lasting impact on a student-athlete which can be positive or negative.

I am not saying I have always been that “transformational coach” and I know I have made plenty of mistakes while coaching students and I hope that my kids knew I cared about them as a person and I wanted them to find success in life. Unfortunately, many of us (myself included) coach how we were coached when we were growing up and if we were not around a “transformational coach”, it is difficult to know how to apply “positive coaching” skills we have never experienced. I truly believe that coaches, teachers and administrators have the opportunity to make a tremendous impact on our students. All of these different positions are coaches of our kids. Ehrmann states, “While our social ills are plentiful, I believe that coaches have the power, platform, and position to be the linchpins in individual and social transformation – player by player, team by team, teachable moment by teachable moment.” To hear that may be overwhelming, but it is simple. You care about the kids, you hold them to high expectations, you never give up on them (even when they may give up on themselves), and you let them know all of this. Kids can read if someone is not sincere and does not care about them. So, if you cannot do the things suggested then you should consider why you are in education? Are you in it for your glory or to help kids grow, learn and be the best person they can be?
Questions & Answers

The following are questions and answers pertaining to the MSHSAA Constitution and By-Laws and/or MSHSAA Board of Directors policy. These are provided as an aid in interpreting the rules and regulations which MSHSAA member schools have adopted. If you have a specific area and/or question which you would like explained, contact Dr. Kerwin Urhahn, MSHSAA executive director. Your attention is called to the fact questions and answers regarding interpretations of the MSHSAA Constitution and By-Laws appear following the Constitution Article or By-Law they relate to in the MSHSAA Official Handbook.

**Question 1:** Our school has applied and been approved to participate in a cooperative sponsorship in baseball. Our school board now wants to void the sponsorship and enter into a cooperative sponsorship with another school in baseball. May our school do this? **Answer:** No. By-Law 1.4.1 provides that two schools may mutually dissolve a cooperative sponsorship but such decision may not occur unilaterally. Further, if a school ends a cooperative sponsorship it may not enter into another cooperative sponsorship in that sport until the next two-year cycle. Therefore, your school cannot enter into an agreement with another school. (By-Law 1.4.1)

**Question 2:** School A, a Class 1 school, is bordered by a Class 5 school, a Class 2 school and a K-8 district. School A wants to co-op with the Class 1 school on the other side of the K-8 district. May our school do this? **Answer:** No. By-Law 1.4.1 provides that two schools may mutually dissolve a cooperative sponsorship but such decision may not occur unilaterally. Further, if a school ends a cooperative sponsorship it may not enter into another cooperative sponsorship in that sport until the next two-year cycle. Therefore, your school cannot enter into an agreement with another school. (By-Law 1.4.1)

**Question 3:** A small Class 1, Grades 7-12 member school, has a junior high basketball season with a team comprised of grades 7-9. Following the junior high season, the school wants to have a cooperative sponsorship agreement with a neighboring member school in girls basketball to include the ninth graders moving up to the cooperative sponsorship high school team after the junior high season is over. Would this be allowed under By-Law 1.4.1? **Answer:** Yes, provided the ninth graders do not exceed the 20-week participation limit, quarter and tournament limitations. (By-Law 1.4.1)

**Question 4:** One of our swimmers has approached our principal requesting to miss this upcoming Friday school swimming practice to travel to Oklahoma for a non-school swim meet. Would it be acceptable for our principal and coach to approve this request? **Answer:** Yes. This is not a replacement of school practice and is considered as a case by case request as permitted in the by-law (3.13.2.a) to be addressed by the local school administration. This decision rests with the school.

**Question 5:** In the posting of our open facility our softball coach stated “Any girl wanting to play softball may come to the open facility.” Is this a proper posting? **Answer:** No. The “wanting to play softball” implies future team membership. It is acceptable to say “Open facility for softball play.”

Appeals Committee Telephone Conference Call Meeting

*Held January 15, 2013*

The Appeals Committee heard two cases by telephone conference call and ruled as follows:

a. Denied appeal to grant unrestricted eligibility under provisions contained in MSHSAA By-Law 3.10.4.a, Standard Transfer Application (no eligibility for 365 days as appeal deemed for athletic reasons):
   1. Fair Grove High School

b. Denied appeal to grant eligibility under provisions of Article IV, Section 6-p, Hardship Provision of the MSHSAA Constitution:
   1. St. Charles High School

It is permissible for a local school to give a student-athlete permission to miss swimming practice in order to compete in a non-school swim meet, per By-Law 235.1-c-1. This issue, along with cooperative programs and others are the focus of this issue’s Q&A section.
Six cases were reviewed and decided on the basis of documentation presented by the Associate Executive Director to the Appeals Committee:

- **a. Denied appeals to grant unrestricted eligibility to the following schools' students under provisions contained in MSHSAA By-Law 3.10.4.a, Standard Application Transfer:**
  1. Higbee High School
  2. Lift for Life Academy Charter High School
  3. Paris High School (Two Student Appeals)
- **b. Granted unrestricted eligibility to the following school’s student under provisions contained in MSHSAA By-Law 3.10.4.h, Hardship Application Transfer:**
  1. Niangua High School
  2. Russellville High School
  3. Paris High School (Two Student Appeals)

- **c. Denied appeal to grant eligibility under provisions of Article IV, Section 6-p, Hardship Provision of the MSHSAA Constitution:**
  1. Ste. Genevieve High School
  2. Potosi High School
  3. Russellville High School

- **d. Denied appeals to grant unrestricted eligibility under Transfer Waiver, By-Law 3.10.4.i:**
  1. Marquette High School
  2. Russellville High School
  3. Higbee High School

- **e. Denied appeal to grant unrestricted eligibility under provisions contained in MSHSAA By-Law 3.10.4.h, Hardship Application Transfer:**
  1. Hickman High School
  2. Potosi High School

- **f. Denied appeal to grant unrestricted eligibility under provisions contained in MSHSAA By-Law 3.10.4.a, Standard Transfer Application (no eligibility for 365 days as appeals deemed for athletic reasons):**
  1. Lafayette (Wildwood) High School

1. **Recommended allowing eighth grade students to participate in high school conditioning programs at the high school in which the junior high school is a feeder school to the high school.**
   
2. **Recommended increasing the number of allowable quarters of play in regular season football from 50 to 60.**

3. **Recommended allowing high school students during the school year outside of the sport season to assist coaches in instructing and mentoring elementary students in athletics.**

4. **Recommended moving the first allowable practice date one week earlier in the fall.**

5. **Went on record supporting the special election taking place this fall to allow Home School Associations to become Affiliate MSHSAA Members.**

6. **Recommended allowing summer school classes to count toward regaining academic eligibility.**

1. **Recommended that in situations where information comes to light that a sending school has not provided accurate information on a transfer form, that the issue be pursued with the sending school and that they be required to show cause why they should not be considered in violation of By-Law 1.2.1, Institutional Control and subject to penalties.**

   **Rationale:** There have been some recent issues with inaccurate information being provided on transfer forms by non-public schools, primarily in regard to citizenship issues. This is problematic for the receiving school and hinders accurate MSHSAA rulings. Schools need to be educated on the importance of accurate information. When inaccurate information is provided intentionally or carelessly, schools should be subject to penalties.
The annual MSHSAA Board of Directors election will be conducted in April in accord with provisions contained in Article IV, Sections 3 and 4 of the MSHSAA Constitution. Member schools from the Central and St. Louis districts and Region 2 will elect Board members for four-year terms. The South Central District will fill a one-year vacancy.

Primary (nomination) ballots will be e-mailed to member schools in the three districts and Region 2 on February 11 and must be received in the MSHSAA office no later than March 4. The names of the three persons receiving the highest number of votes in the primary election in each district and region will appear on the final ballot unless there is a tie for the third highest position. In such cases, only the names of the persons receiving the two highest number of votes will be placed on the final ballot.

Final ballots will be on-line for all schools in the three districts and Region 2 on April 1 and must be submitted through the MSHSAA website no later than May 1. All ballots are sent to the attention of the school principal.

2013 Board of Directors Elections for Central, St. Louis & South Central Districts and At-Large Region 2

The annual MSHSAA Board of Directors election will be conducted in April in accord with provisions contained in Article IV, Sections 3 and 4 of the MSHSAA Constitution. Member schools from the Central and St. Louis districts and Region 2 will elect Board members for four-year terms. The South Central District will fill a one-year vacancy.

Primary (nomination) ballots will be e-mailed to member schools in the three districts and Region 2 on February 11 and must be received in the MSHSAA office no later than March 4. The names of the three persons receiving the highest number of votes in the primary election in each district and region will appear on the final ballot unless there is a tie for the third highest position. Final ballots will be on-line for all schools in the three districts and Region 2 on April 1 and must be submitted through the MSHSAA website no later than May 1. All ballots are sent to the attention of the school principal.

2013 Investigative Committee Elections

The investigative committee from each of the eight MSHSAA board districts shall consist of one public school administrator, one nonpublic school administrator, and one at-large school representative.

Each year, one of the members will rotate off the committee and a replacement shall be voted on by the membership. Only self-nominations for the appropriate category for replacement members can be accepted (public member will need to be replaced by a public school nominee, nonpublic member will need to be replaced by a nonpublic school nominee, and an at-large member can be a nominee from either public or nonpublic schools). Each district’s nomination ballot will list the specified membership category to be voted on for the respective district for the current year.

The self-nomination ballots will be e-mailed to the member school principals on February 11 and must be received in the MSHSAA office no later than March 4. The ballot listing the nominees received will be on the MSHSAA website for member schools’ principals on April 8, with a due date of May 1. Please be certain to participate in these elections.

Annual Election to Amend MSHSAA Constitution and By-Laws

The 2013 MSHSAA annual election to amend the Constitution and By-Laws will again be held in April. The proposed amendments and background information will be distributed to member schools the last week in March. The Annual Ballot will be on-line the first week in April. All ballots are required to be finalized on-line by the school principal no later than May 1.
Parental Permission Statement Reminder for Spring Sports

MSHSAA By-Law 3.7 requires each student participating in interscholastic athletic competition to furnish a statement, signed by the student’s parents or guardians, which grants permission for the student to participate in interscholastic athletics. As an aid to member schools in complying with this requirement, the MSHSAA includes a recommended parental permission statement on the MSHSAA physical examination form, available on the MSHSAA Web Site.

Included as a part of the recommended parental permission statement is a statement acknowledging that the parents consent for the student to accompany the team on trips. It further acknowledges that in case of a medical emergency where the parent cannot be reached, the school official with supervisory responsibility for the individual student or group of students on the trip is authorized to obtain emergency medical assistance through a physician or hospital of the supervisors choice which would be considered reasonably necessary for the welfare of the student.

While the parental permission form is required of all athletes, MSHSAA By-Laws do not require them for students participating in nonathletic activities or for students who serve in a support capacity for an athletic team such as statistician, manager, etc. However, the MSHSAA has been advised of a medical emergency that arose involving a student who was accompanying an athletic team to videotape games. Unfortunately, the school in question did not have a parental consent form signed for the student which authorized the school supervisor to obtain emergency medical care. Luckily, the school was able to contact the parents and obtain this permission by telephone after a significant delay.

Because of this experience, it is strongly recommended that school administrators require that signed parental permission statements be on file for all students who travel as a part of an official school party to participate in any type of interschool activity. This will authorize school representatives to seek medical help in emergency situations. These signed statements should accompany the school supervisor on every school trip. It may be of further assistance to have these forms notarized.

MSHSAA Board of Directors Policy Regarding Specialized Sport Camp Fees

Provisions contained in MSHSAA By-Laws 3.13.6.b and 3.15.5.e stipulate that fees (tuition) for summer athletic camps shall be provided by the student or the student’s parents precludes a school from being involved in any group projects to raise money to pay these fees. This restriction applies to a booster club as well as to school coaches. As far as the restriction on athletes is concerned, it would be permissible for several members of a school team to assemble themselves for the purpose of collectively undertaking work projects such as a car wash, a bake sale or other similar type of activities to earn money which could be applied toward camp fees. Under such circumstances all money earned shall go directly to the student to be used at his or her discretion. If the students assemble themselves collectively there can be no requirement that the money earned must go toward the payment of camp fees. Students cannot be assembled through coordination of the school, booster club, or coach nor can they identify themselves as the school athletic team with the purpose of raising money to attend a sport camp.

Coaches & Activities Directors Influence MSHSAA Program

The MSHSAA has advisory committees, appointed by the Board of Directors, for each sport and activity in which district and state events are sponsored. Each committee makes recommendations to the Board regarding matters relating to the sport or activity concerned. Some of these are in the form of regulations for the administration of district and state events which become effective when approved by the Board of Directors. Others involve proposals to amend the Constitution and By-Laws which must be put to a vote of the schools when accepted by the Board. The record shows that approximately 80-percent of the recommendations of these committees are approved by the Board and have resulted in significant changes in the MSHSAA program.

This is the Board of Director’s procedure for allowing coaches and those involved at the grass roots level to make contributions. The only concern of the Board is that the recommended changes are acceptable to school administrators and do not adversely affect other activities.

The names of advisory committee members are contained in the manuals published for the sport or activity concerned. Coaches, music directors, and speech directors who desire to have changes considered should contact the person on the particular advisory committee from his or her district. Some advisory committee members hold meetings in their areas at the time of district events to get a consensus from their colleagues. This procedure is encouraged to involve as many persons as possible.

Frequently, suggestions from advisory committees are first placed on the Annual MSHSAA Questionnaire sent to member schools in February each year to get a consensus from the schools to determine whether a proposal is satisfactory. In addition to providing the Board of Directors with information regarding the position of school administrators on the matter, it provides an opportunity for each school to give consideration to proposed changes. School administrators are urged to meet with members of their staffs concerned. This course helps provide programs that are acceptable to the majority of persons who are interested in the educational welfare of our youth.

Urhahn presented five recommendations and one motion to go on record from the Athletic Directors Advisory Committee: 1) recommended allowing eighth grade students to participate in high school conditioning programs at the high school in which the junior high school is a feeder school to the high school; 2) recommended increasing the number of allowable quarters of play in regular season football from 50 to 60; 3) recommended allowing high school students during the school year outside of the sport season to assist coaches in instructing and mentoring elementary students in athletics; 4) recommended moving the first allowable practice date one week earlier in the fall; 5) went on record supporting the special election taking place this fall to allow Home School Associations to become Affiliate MSHSAA Members; 6) recommended allowing summer school classes to count toward regaining academic eligibility.

Forwarded recommendations 1, 3, 4 and 6 to the Area Meetings, and forwarded recommendation 2 to the Annual Questionnaire from the Athletic Directors Advisory Committee. (Note: item 5 was a motion to go on record from the committee, no action needed).

Stahl presented five recommendations from the Tennis Advisory Committee: 1) recommend to increase the state medalist for singles and doubles to include 7th and 8th place; 2) recommend that line-ups be posted within 72 hours of the conclusion of each match. Failure to do so will result in a fine set by the MSHSAA Board of Directors; 3) recommend that a Doubles tournament with three or more flights shall allow the doubles rank order for the tournament to count ONE time towards doubles line-ups post season eligibility for Team play; 4) recommend to remove A-2 section page 19 of the Tennis Manual. Section A-2: After the Individual District Seeding Meeting but Prior to the Start of Competition: Only in the case of illness or injury certified by the school principal in writing; or for doubles play, in the case of unforeseen or unavoidable circumstances, through advanced approval by the MSHSM. (If the substitution is not approved by the MSHSM, remaining doubles team shall be placed in the #1 spot and the #2 spot shall be defaulted.) Approved substitute shall be a player who has not been entered in district singles or doubles on the entry form. NOTE 1: For individual play, “competition” is defined as when the first assigned. NOTE 2: For individual districts only, if a substitution is made for an ill or injured player that was seeded or if a seeded player defaults prior to play, the bracket should be re-seeded (not re-drawn) at the pre-tournament meeting just prior to the start of competition. (The bracket may need to be re-drawn in order to keep players or teams from the same school on opposite sides of the bracket.) 5) recommend reroading Section A-3, Page 19 of the Tennis Manual to state: Once individual seeding has started for singles: no substitutions can be made to singles entries. This same regulation applies to doubles. Section A-3: Once individual district competition seeding has started for singles and/or doubles, no substitutions can be made to singles entries. This same regulation applies to doubles. This substitution restriction applies even if a singles player or doubles team player(s) are injured during the warm-up prior to competition and after the start of seeding.

Note: At the time of the next recommendation to the Board there were only eight Tennis Advisory Committee members left; therefore, not enough for a quorum. The eight remaining members have asked that the Board of Directors conduct a survey of member tennis schools for determining the support of a developing a committee to look at seeding criteria for State Singles and Doubles brackets.

Approved recommendations 1, 2, 4, and 5, and tabled recommendation 3 from the Tennis Advisory Committee and approved the staff recommendation to not conduct a survey of member tennis schools to determine the support of developing a committee to look at seeding criteria.

Urhahn presented one recommendation from the Public/Nonpublic Advisory Committee: 1) Recommended that in situations where information comes to light that a sending school has not provided accurate information on a transfer form, that the issue be pursued with the school in which the junior high school is a feeder school to the high school in which the junior high school is a feeder school to the high school; 2) recommended allowing eighth grade students to participate in high school conditioning programs at the high school in which the junior high school is a feeder school to the high school; 3) recommended increasing the number of allowable quarters of play in regular season football from 50 to 60; 4) recommended allowing high school students during the school year outside of the sport season to assist coaches in instructing and mentoring elementary students in athletics; 4) recommended moving the first allowable practice date one week earlier in the fall; 5) went on record supporting the special election taking place this fall to allow Home School Associations to become Affiliate MSHSAA Members; 6) recommended allowing summer school classes to count toward regaining academic eligibility.

Urhahn presented one recommendation from the Public/Nonpublic Advisory Committee: 1) Recommended that in situations where information comes to light that a sending school has not provided accurate information on a transfer form, that the issue be pursued with the sending school and that they be required to show cause why they should not be considered in violation of By-Law 1.2.1, Institutional Control and subject to penalties.

Approved the recommendation from the Public/Nonpublic Advisory Committee.

Thompson presented four recommendations from the Softball Advisory Committee: 1) recommend all MSHSAA post season softball games called due to darkness, rain, or other causes shall be considered suspended games and shall be continued from the point of suspension. If the required number of innings have been played to determine a winner, the team trailing at the time of suspension has the option to return and finish the game or have the current score considered final. The Head Coaches of both schools and the Home Plate Umpire must sign the official scoreboard indicating the game is completed if the schools choose not to return to finish the game. MSHSAA State Site Third Place Games: If a MSHSAA State Third Place Game is called due to darkness, rain, or other causes it shall be considered a suspended game and shall be continued from the point of suspension on the next consecutive day. If the game cannot be played on the next day and a winner cannot be determined, continued on page 11
the game shall not be completed and both teams will be considered Third Place teams. If the required number of innings has been played to determine a winner, the team trailing at the time of suspension has the option to return and finish the game the next day or have the current score considered final; 2) Recommend the following statements be added to the Field Qualifications:

Field Qualifications: Recommendation for regular season REQUIRED for post season.

1. MHSAA Post Season contests shall be played on fields designed/constructed and intended for Softball; not fields where the host has created a temporary softball field. Teams should not be placed in an unfair/unsafe situation by playing on make shift softball field. Example: A football/soccer field converted to a softball field. A baseball outfield converted to a softball field. A baseball field used in a traditional manner with the mound removed and temporary fencing would meet the qualifications to host, as long as all other requirements are met.

2. The field must have an outfield fence (the recommended distance is 200 feet (185ft-235ft); a permanent fence is preferred). A school cannot host without a fence.

3. The facility must have a means to charge admission.

4. A facility with lights is preferred, but not required.

5. The field shall not include a baseball mound. A school cannot host if the field has a baseball pitcher’s mound.

6. Multiple fields at one facility are preferred, but not required.

7. Restrooms and concession stands are preferred, but not required.

8. The softball field should be free of dangerous obstructions and/or non-traditional softball playing equipment. (Ex. Soccer goals, Goal Posts, Maintenance Equipment, etc.);

3) recommend a Spring Softball State Championship be conducted by MSHSAA. Schools will be permitted to play in only one State Softball Series. They must choose either the Fall or Spring Championship by the sport.

Approval of Spring Softball State Championships; and 11) Petitions (Track Classification).

Approved the eleven topics presented for the 2012-13 Area Meetings.

Urhahn presented eleven items for consideration at the Area Meetings: 1) 8th Grade Students Participating in High School Conditioning Programs; 2) Elimination of 3rd Place Games at State Basketball Championships; 3) Fall First Allowable Contest 2014-15: 4) Fall Practice 2014-15; 5) Heat Acclimatization; 6) High School Students Assisting in Youth Sport Camps; 7) Preseason Scrimmage; 8) State Baseball Tournament on One Weekend; 9) Summer School courses for eligibility; 10) Softball Championships; and 11) Petitions (Track Classification).

Approved the eleven topics presented for the 2012-13 Area Meetings.

Urhahn informed the Board that there were eight junior highs and nine senior high school that did not have an administrator in attendance at this year’s required administrative rules meetings. There was one high school that had not had representation at the meetings for two consecutive years and three junior highs with no representation for three consecutive years.

Resolved to suspend from district play and fine any high school who does not attend a required Administrators Rules Meeting for a third consecutive year.

MSHSAA & NFHS Policy Statement on Steroids

The Missouri State High School Activities Association (MSHSAA) and the National Federation of State High School Associations (NFHS), strongly oppose the use of anabolic steroids and other performance-enhancing substances by high school student-athletes. Such use violates legal, ethical, and competitive equity standards and imposes unreasonable, long-term health risks.

The MSHSAA and the NFHS support prohibitions by educational institutions, amateur and professional organizations, and governmental regulators on the use of anabolic steroids and other controlled substances, except as specifically prescribed by physicians for therapeutic purposes.

**Tennis Advisory Committee Summary**

**Held October 30, 2012**

1. Recommend to increase the state medalist eligibility for singles and doubles to include 7th and 8th place.

2. Recommend that line-ups be posted within 72 hours of the conclusion of each match. Failure to do so will result in a fine set by the MSHSAA Board of Directors.

   **Board Approved Fine:** $25 fine for each lineup not posted within 72 hours of the conclusion of a tennis match.

3. Recommend that a Doubles tournament with three or more flights shall allow the doubles rank order for the tournament to count ONE time towards doubles line-ups post-seas on eligibility for Team play.

   **Tabled:** This recommendation is on hold until the cost associated with building the feature to the website can be determined. This feature would have to occur on the website in order for accurate postseason eligible double line-ups to be posted.

   **Section A-2:** After the Individual District Seeding Meeting but Prior to the Start of Competition: Only in the case of illness or injury certified by the school principal in writing; or for doubles play, in the case of unforeseen or unavoidable circumstances, through advanced approval by the MSHSAA. (If the substitution is not approved by the MSHSAA, remaining doubles team shall be placed in the #1 spot and the #2 spot shall be defaulted.) Approved substitute shall be a player who has not been entered in district singles or doubles on the entry form.

   **NOTE 1:** For individual play, “competition” is defined as when the first assigned.

   **NOTE 2:** For individual districts only, if a substitution is made for an ill or injured player that was seeded or if a seeded player defaults prior to play, the bracket should be re-seeded (not re-drawn) at the pre-tournament meeting just prior to the start of competition. (The bracket may need to be re-drawn in order to keep players or teams from the same school on opposite sides of the bracket.)

5. Recommend rewording Section A-3, Page 19 of the Tennis Manual to state: Once individual seeding has started for singles, no substitutions can be made to singles entries. This same regulation applies to doubles.

   **Section A-3:** Once individual district competition seeding has started for singles and/or doubles, no substitutions can be made to singles entries. This same regulation applies to doubles. This substitution restriction applies even if a singles player or doubles team player(s) are injured during the warm-up prior to competition and after the start of seeding.

   **Amended:** To include the addition of - This substitution restriction applies even if a singles player or doubles team player(s) are injured during the warm-up prior to competition and after the start of seeding.

   * Note: At the time of the next recommendation to the Board there were only 8 Tennis Advisory Committee members left; therefore, not enough for a quorum. The 8 remaining members have asked that the Board of Directors conduct a survey of member tennis schools for determining the support of developing a committee to look at seeding criteria for State Singles and Doubles brackets.

**Yellow & Red Card Summary Forms Required**

In an effort to help facilitate the lines of communication between officials, coaches, and administrators as well as to provide a paper trail for the issuing of yellow and red cards a soccer game summary form has been developed. The hosting school will be required to provide a Yellow and Red Card Summary Form to the head official prior to the start of each game. A special report should be filed by officials to the MSHSAA Office on schools who do not provide the Yellow and Red Card Summary Form and schools should file a special report on officials who refuse to use or complete the Yellow and Red Card Summary Form during the game. The summary forms will provide administrators, coaches, and officials a written documentation of accumulated cards throughout the season, and designate whether the cards issued are “off-the-ball unsportsmanlike” or “other” violations. This should assist administrators and coaches in tracking the accumulation of yellow and red cards for players as well as the team 10-card rule for coaches and their respective penalties related to card accumulation.

- The yellow and red card summary form will be in triplicate.
- Hosting school will provide form before each game.
- The head official will track all cards assessed during the game.
- The official will provide both the visiting and home team coach a copy.
- The official will keep a copy for his or her own records.
- Violations of NFHS soccer rule 12-8-1: c, d, f2, 12-8-2: a, b, 12-8-3: a, b, d, e, or f will count towards the team 10-card count.
- Cards received marked “other” will not count towards the team 10-card count.
- “Other” cards will go toward an individual players card count.
- The cost of the Soccer Yellow and Red Card Summary Form is $4 per 50 forms plus shipping and handling.
- Ordering information is located on the MSHSAA website.

**2013-14 National High School Policy Debate**

**Topic: Latin America**

**Resolved:** The United States federal government should substantially increase its economic engagement toward Cuba, Mexico or Venezuela.
Problems scheduling performances at the MSHSAA State Music Festival due to local conflicts (i.e. proms, musicals, theatrical productions, athletic events, etc.) are becoming more prevalent. Due to the size of the festival, it is impossible to schedule every performance to avoid local conflicts.

School administrators and activities directors are asked to avoid scheduling local events that will conflict with the MSHSAA Music Festival performances. The dates of the 2013 Festival are scheduled for April 25-April 27.

Music directors should also be aware that with approximately 9,000-10,000 students participating at the State Festival each year, some events from your school may be scheduled at the same time. It is impossible to build a schedule that will allow every director to hear each entry. Therefore, schedule changes will only be made if there is a direct conflict with an accompanist or a student scheduled for two events during the same time period. Please remember that an individual may accompany no more than 20 entries per day at the district and state music festivals.

Due to the number of participants at the State Festival, the MSHSAA staff will not be able to honor specific performance time requests. In an effort to assist school administrators and music directors in making appropriate plans for the event as far in advance as possible, a brief summary of the scheduling process is being presented.

Schools should plan to have their schedule encompass the amount of time indicated below. These performance schedules are based on the average amount of time necessary to accommodate the entries as listed.

- 40 or more entries ......... allow 8 hours
- 30-39 entries ............... allow 7 hours
- 20-29 entries ............... allow 6 hours
- 10-19 entries ............... allow 5 hours
- 6-9 entries .................. allow 4 hours
- 5 or fewer entries ........... allow 3 hours

Schools spending the night prior to their performance date should plan on beginning early in the morning. Schools spending the night the day of the performance should plan on performing through the end of the day. Schools with many entries will be scheduled to occupy the mid-morning through afternoon time slots.

When listing accompanists, it is very important that only a true accompanist is listed. If directors list themselves and are not truly accompanying the performance, scheduling problems for their school and other schools may occur. Please list events appropriately. Your cooperation is appreciated.

This year, selected schools located in the Northeast, Central, South Central and Kansas City districts are scheduled to perform on Thursday, April 25. All schools located in the Northwest and selected schools located in the Kansas City, Northeast and South Central districts will attend the festival on April 26. All schools located in the St. Louis, Southwest and Southeast districts will attend the festival on Saturday, April 27. If you are unsure which day you are assigned, go to the Music Activities link of the MSHSAA web site (www.mshsaa.org). If your school is not listed, the school did not register for music for the 2012-13 school year, and you should contact MSHSAA immediately.

Music Awards Now Available to Music Students and Schools

MSHSAA offers music awards for purchase by individual music students and schools to recognize outstanding performances at the district and state music festivals. These quality awards are designed to recognize the achievements of students or groups receiving a division 1 or 2 rating at the district and state festivals. The cost per medal is $3.00.

A plaque may also be purchased to recognize large and small ensembles that receive a 1 Rating at the MSHSAA Music Festival. The plaque has been designed to accommodate six past, present and future groups. Plaques may be ordered for $50 which includes six plates. Engraving, which includes the state seal, is $7 per plate.

Order forms for awards are located on the MSHSAA web site by selecting the “music activities” link. The orders and full payment or purchase order must be sent to MSHSAA. After processing, the awards will be shipped directly from the supplier to the address on the order form.

All proceeds from the sale of the music awards is utilized to fund the graded music list projects and the adjudicators’ training program. Your continued support of this program will continue to benefit the interscholastic music program.
Spring Tryouts for Sideline Cheer, Pom & Winter Guard Teams Require Physicals

The MSHSAA Board of Directors has interpreted By-Law 4.5.6 to include tryouts as a recognized event for sideline cheerleading and dance teams. School administrators and event sponsors should be certain all students involved in the tryouts provide a physician’s certificate stating that the individual is physically able to participate in sideline cheerleading or dance activities as required prior to participating in any activities in preparation for tryouts.

It should be noted that cheerleading and dance physicals issued on or after February 1, 2013, are valid for the remainder of the current school year and all of the upcoming school year (2013-2014).

To keep problems at a minimum, please provide advance notice of this requirement to interested students to allow sufficient time for physicals to be obtained prior to tryouts.

Speech Season Ends April 1

MSHSAA member schools participating in speech and debate contests are to end their seasons by April 1, 2013. Only those individuals who have qualified for the 2013 MSHSAA Speech & Debate Championships, held April 19-20, may continue beyond the official close of the 2012-13 speech season.

Speech and debate coaches should refer to the 2012-13 MSHSAA Official Handbook, which indicates the season limits for interscholastic speech programs. The by-law provides that "no interscholastic debate, dramatics, or speech events shall be held before the second Friday in October or after April 1."

Exception: Schools shall be permitted to participate in one interscholastic speech, debate, and/or drama event in addition to the MSHSAA State Tournament, between April 1 and the beginning of summer. Such event must count as one of the student’s 11 allowable regular season speech, debate, and drama events for that school year as per By-Law 4.3.1 (Limits on Participation) and must meet the travel regulations per By-Law 4.3.4e.

Certified Music Adjudicators Needed – Strings, Percussion and Piano Areas

The MSHSAA District Solo/Small Ensemble Music Festival and State Large Group Festivals currently are experiencing a shortage of certified adjudicators in the area of strings, percussion and piano. Within the next 1-2 years MSHSAA will require that all individuals wishing to adjudicate a MSHSAA District and/or State Large Group Music Festival be certified through the MSHSAA Music Adjudicator Training Program.

For the past 2 years a sub-committee has been reviewing and revising the adjudicator training program to address this shortage and to update and enhance the training materials and overall certification process. One of the changes recommended will be to create separate training programs for the strings and piano areas. Other recommendations will be to lower the years of experience required to become a certified adjudicator; create an online review system to maintain certification each year; revision of the adjudication form and terminology and expand the training sessions offered across the state.

The Music Advisory Committee will review and discuss the recommendations at their May 2013 meeting. Please check the ‘music activities’ page of the MSHSAA website for future updates and information.
